About EY's CFO Program

Globally, EY has invested in a CFO program to provide insight and guidance to CFOs and future finance executives, as they seek to develop themselves and their teams and learn from others in their peer community.

The First 100 Days Program is a bespoke, one-on-one program to for Group, divisional, business unit and future CFOs to test and develop your strategy. The program is tailored to your needs, taking into consideration the size and global reach of your organisation, your industry and your past experience.

For experienced CFOs, the program is a forum to test your strategy. For new or future CFOs, it will enable you to develop a robust approach to your first 100 days in a new role.

The program

In the initial workshop we will determine your priorities for the first 100 days. We will work through an exercise to understand your requirements, including industry and organisational up skilling and insights, and map out your personalised program.

The twelve one hour one-on-one modules are based on the six key areas that our global research indicates make up the broad spectrum of the CFO's role. See overleaf for a description of the sessions available.

The First 100 Days Program is offered at no charge to CFOs as an exclusive G100 member benefit. For more information and to register your interest, please contact:

Your modules

Choose from the following one hour one-on-one modules to design your personal program. Modules can be combined to best suit your availability either in the lead up to a new role, or within the first few months of your appointment.

Stakeholder communications

Delve into key aspects of stakeholder management that build confidence in the market place, including techniques and skills to ensure your messages are delivered clearly and professionally.

Purpose and strategy

Identify financial risks and opportunities to inform the development, implementation and monitoring mechanisms of your strategy in the context of purpose.

Planning your digital response

From informing strategic direction to influencing every element of operations, CFOs must strike the balance between innovation and risk management to drive successful digital strategies and cost optimisation.

Mergers and acquisitions

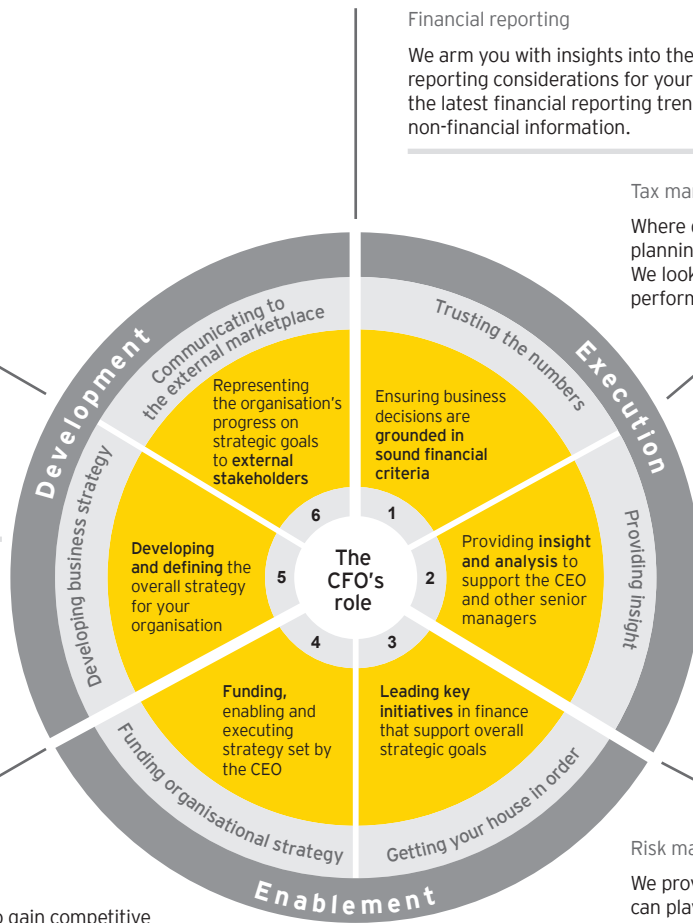

Develop a clear growth strategy to gain competitive advantage. We examine your role in evaluating risk and assessing investment opportunities.

Capital and funding strategies and trends

This module addresses key aspects of capital and funding strategies, including both debt and equity capital raising.

Driving value through integration

After gaining an understanding of why many integrations fail to deliver planned value, we highlight the leading practices and key focus areas for the first 100 days and beyond.

Financial reporting

We arm you with insights into the key financial reporting considerations for your industry, including the latest financial reporting trends and relevant non-financial information.

Tax management

Where does your business sit in the tax life cycle – planning, provision, compliance and controversy? We look at strategies to enhance tax function performance across your organisation.

Role of the CFO and finance function

We examine the role of the CFO in leading and creating change to ensure a high performing finance function that contributes value to the business.

The analytics-driven CFO

The finance function of the future will use insight from the past to predict and affect future performance. We unpack how the analytics-driven CFO can evolve their role to deliver strategic value by mitigating risk, testing and adapting future strategic directions and drive improved financial performance across organisations.

Risk management

We provide guidance on the leadership role you can play to measure, manage and minimise risk, while balancing the risk profile to taking advantage of business opportunities.

Fraud, bribery and corruption

Drawing on our experience in investigations and internal control rectification, we will examine areas of exposure for your organisation, and leading practice to prevent, detect and respond to these risks.
