Building a better working world

1

A bespoke, one-on-one program to test and develop your strategy

2

Connect with senior partners and subject matter experts to provide commercial, industry and executive insight

3

Workshops to build your core skills, areas of knowledge, experiences and relationships

ABOUT EY'S

CFO Program

Globally, EY has invested in a CFO program to provide insight and guidance to CFOs and future finance executives, as they seek to develop themselves and their teams and learn from others in their peer community.

The First 100 Days Program is a bespoke, one-on-one program to for Group, divisional, business unit and future CFOs to test and develop your strategy. The program is tailored to your needs, taking into consideration the size and global reach of your organisation, your industry and your past experience.

For experienced CFOs, the program is a forum to test your strategy. For new or future CFOs, it will enable you to develop a robust approach to your first 100 days in a new role.

The program

In the initial workshop we will determine your priorities for the first 100 days. We will work through an exercise to understand your requirements, including industry and organisational up skilling and insights, and map out your personalised program.

The thirteen one hour one-on-one modules are based on the six key areas that our global research indicates make up the broad spectrum of the CFO's role. See overleaf for a description of the sessions available.

The first 100 Days Program is offered at no charge to CFO's. For more information and to register your interest please contact:

Modules

Choose from the following one hour one-on-one modules to design your personal program. Modules can be combined to best suit your availability either in the lead up to a new role, or within the first few months of your appointment.

Stakeholder communications

Delve into key aspects of stakeholder management that build confidence in the market place, including techniques and skills to ensure your messages are delivered clearly and professionally.

Purpose and strategy

Identify financial risks and opportunities to inform the development, implementation and monitoring mechanisms of your strategy in the context of purpose.

Planning your digital response

From informing strategic direction to influencing every element of operations, CFOs must strike the balance between innovation and risk management to drive successful digital strategies and cost optimisation.

Financial reporting

We arm you with insights into the key financial reporting considerations for your industry, including the latest financial reporting trends and relevant non-financial information.

Tax management

Where does your business sit in the tax life cycle – planning, provision, compliance and controversy? We look at strategies to enhance tax function performance across your organisation.

Role of the CFO and finance function

We examine the role of the CFO in leading and creating change to ensure a high performing finance function that contributes value to the business.

The analytics-driven CFO

The finance function of the future will use insight from the past to predict and affect future performance. We unpack how the analytics-driven CFO can evolve their role to deliver strategic value by mitigating risk, testing and adapting future strategic directions and drive improved financial performance across organisations.

Mergers and acquisitions

Develop a clear growth strategy to gain competitive advantage. We examine your role in evaluating risk and assessing investment opportunities.

Capital and funding strategies and trends

This module addresses key aspects of capital and funding strategies, including both debt and equity capital raising.

Driving value through integration

After gaining an understanding of why many integrations fail to deliver planned value, we highlight the leading practices and key focus areas for the first 100 days and beyond.

Risk management

We provide guidance on the leadership role you can play to measure, manage and minimise risk, while balancing the risk profile to taking advantage of business opportunities.

Climate risk

We provide guidance to CFOs on the background of climate science, the relevance of climate change to business, the types of risks involved and financial and legal implications for business. The module also covers standards, guidance and tools that relate to disclosure, management and mitigation of climate risk.

Fraud, bribery and corruption

Drawing on our experience in investigations and internal control rectification, we will examine areas of exposure for your organisation, and leading practice to prevent, detect and respond to these risks.

EY | Building a better working world

EY exists to build a better working world, helping to create long-term value for clients, people and society and build trust in the capital markets.

Enabled by data and technology, diverse EY teams in over 150 countries provide trust through assurance and help clients grow, transform and operate.

Working across assurance, consulting, law, strategy, tax and transactions, EY teams ask better questions to find new answers for the complex issues facing our world today.

EY refers to the global organization, and may refer to one or more, of the member firms of Ernst & Young Global Limited, each of which is a separate legal entity. Ernst & Young Global Limited, a UK company limited by guarantee, does not provide services to clients. Information about how EY collects and uses personal data and a description of the rights individuals have under data protection legislation are available via ey.com/privacy. About the Group 100

Our Purpose

Today's leading CFOs creating better businesses for tomorrow.

Our Mission

To lead the national debate on key financial and business issues which impact on business performance, regulatory oversight and the nation's competitiveness. To be at the forefront of strategic financial management and thought leadership.

Our Approach

To proactively contribute on a business-to-business and a business-to-government level on matters affecting business regulation, financial reporting, corporate governance, capital markets, taxation and financial management. To research, develop and issue position papers on key subjects vital to sustaining Australia's reputation as an important destination for capital investment. To conduct an ongoing and innovative program of initiatives aimed at supporting the professional development of CFOs and senior financial executives through financial innovation, thought leadership initiatives, both strategic and technical, and peer support through its influential national network. To continue to be the preeminent voice for CFOs in Australia.
